Imam Ali and Lady Fatima a.s.

Oh Fatima do you recognise me
For I am the father of our children
Imam Ali

Oh Ali do you recognise who I am

For I am the mother of our children

Fatima

Oh Fatima my wife

Do you know that they call me

The commander of the faithful

Oh Ali my husband

Do you know that they call me

The leader of the women of the world

Fatima they say that
your father is the city of knowledge
And that I am its door

Fatima al Zahra
Is what they call me
Shining brightly more

Oh Fatima al Zahra
I am the one
who lifted khaybars door

| Oh Fatima                         |
|-----------------------------------|
| Who else but I                    |
| Was born in the Kabah             |
|                                   |
| Oh Ali                            |
| Who else but I                    |
| Helped my father in the beginning |
|                                   |
| My dear Fatima                    |
| I was the first man               |
| To accept Islam in my heart       |
|                                   |
| My dear Ali                       |
| It was me who looked after        |
| My father from the start          |
|                                   |
| My wife Fatima                    |
| It has been said that only I      |
| Could have been your mate         |
|                                   |
| Oh Ali                            |
| It was destined that              |
| We will be each other's fate      |
|                                   |
| Oh Fatima                         |
| Your brought the world            |
| Hassan and Hussain                |
|                                   |

Oh Ali

I am the one who

Gave birth to all the Imams

| Oh Ali  |
|---|
| But we both know  |
| Their suffering and their pain  |
|   |
| Oh Fatima   |
| It was said that  |
| Hassan will receive a castle of green   |
|   |
| Oh Ali  |
| That is because of the  |
| Poison in his bloodstream   |
|   |
| Oh Fatima   |
| It was said that  |
| Hussain will receive a castle of red  |
|   |
|   |
| Oh Ali  |
| Oh Ali<br>We both know that   |
|   |
| We both know that Its because of his bloodshed  |
| We both know that Its because of his bloodshed Oh Fatima  |
| We both know that Its because of his bloodshed Oh Fatima It has been said   |
| We both know that Its because of his bloodshed Oh Fatima  |
| We both know that Its because of his bloodshed Oh Fatima It has been said That I will be killed as I pray   |
| We both know that Its because of his bloodshed Oh Fatima It has been said That I will be killed as I pray Oh Ali  |
| We both know that Its because of his bloodshed  Oh Fatima It has been said That I will be killed as I pray  Oh Ali To kill you that would be                              |
| We both know that Its because of his bloodshed Oh Fatima It has been said That I will be killed as I pray Oh Ali  |
| We both know that Its because of his bloodshed  Oh Fatima It has been said That I will be killed as I pray  Oh Ali To kill you that would be The only way                 |
| We both know that Its because of his bloodshed  Oh Fatima It has been said That I will be killed as I pray  Oh Ali To kill you that would be The only way  My dear Fatima |
| We both know that Its because of his bloodshed  Oh Fatima It has been said That I will be killed as I pray  Oh Ali To kill you that would be The only way                 |

| My dear Ali                        |
|------------------------------------|
| I am unsure                        |
| For its with you I belong          |
|                                    |
| Oh Fatima                          |
| Soon we will be                    |
| Together once more                 |
|                                    |
| Oh Ali                             |
| Did you know that                  |
| They crushed me at the door        |
|                                    |
| Oh Fatima                          |
| I count the days                   |
| Until we meet again                |
|                                    |
| Oh Ali                             |
| Say salam to our child             |
| Mihsin for he will get their first |
|                                    |
| Oh Fatima                          |
| I know that                        |
| Soon you will be with me           |
|                                    |
| Oh Ali                             |
| I think faintly                    |
| Your face I begin to see           |
|                                    |
|                                    |
