

Eid Al Ghadeer

Today is the 18th of thul hijjah
celebrations held by us the Shia
And a unique day throughout history
The grand appointment of imam ali

As prophet Mohammed stood on the land
Ensuring that the people understand
And so that there would be no confusion
That his khilapha is no illusion

On this very day we should be happy
When our leader was chosen as ali
He should be first not fourth after the three
The rightful leader of humanit

In terms of strength there is no one greater
For islams defence there's no one braver
In battle his courage would not waver
Your remembered as islams true saviour

Married Fatima the best for the best
Who else for her greater than all the rest
A complete man Ali was truly blessed
A heart of gold within an iron chest

On this day we raise our voices so loud
Shiite Ali we say and we are proud
Our voices hear over all of the crowd
Shute Ali we say and we are proud
