

Imam Al Mehdi a.f.

There are those that say why is the Imam hiding

There is so much evil surely we need him now

And why can we not see

Our Imam Al Mehdi

For we need him here does he listen to our cries

s

Those people in Gods plan they underestimate

It is infact the Imam who for us he waits

People of loyalty

Waiting for three one three

Waits patiently, century after century

Would he really have gone into occultation

Had there not been increasing risk escalation

His life was on the line

And there was not much time

For he is the twelvth and final Imam

As he is a shining piercing beacon of light

Shattering away all the darkness in the night

He is a sun ray

Bringing hope everyday

Like the suns presence behind the shroud of a c

loud

Together we refuse to sit idly by

And watch as all of the hours and days pass by

We wont waste our day

And our memory

For we will strive to remember Imam Mehdi
