

Eid Al Ghadeer

Oh there were so many people gathered that day
For there was something the prophet had to say
Here was there to deliver a proclamation
On that day he was to give a declaration

It was quiet when the prophet stood on the mound
All was still and silent no body made a sound
For this was the prophet of all humanity
And who was it that stood next to him it was Ali

A cloudless sky and the sun was shining so bright
But on that day there was another source of light
This light this bright noor it was from the Ahlulbayt
A light so bright that it will never ever fade

I stand here as the prophet of society
And today I will tell you who will follow me
An honest man of courage and of bravery
He stands here beside me and his name is Ali

I am the city of knowledge and whose its door
At this point the people cried Ali in uproar
Ali was the person who lifted bab khaybar
The hero of Islam and the whole worlds saviour

What is it we say when we need help Ya Ali

Who was the first Muslim to convert Ya Ali

The father of Hassan and Hussain Ya Ali

The first Imam and our leader Ya Ali
