

Imam Mehdi A.S.

Whether in plain sight or just unseen  
Throughout all of time there has always been  
A guide from God to show us the way  
A messenger with us every day

From the first man Adam to Mohammed  
Many great prophets we have had  
And after Mohammed their came  
Ali Hassan and Imam Hussain

And all the Imams whose space they filled  
Each and everyone was killed  
All given poison except for Hussain  
Whose severed head in kerbala remains

Now we have amongst us a man so great  
For he is an Imam of the Ahlul bayt  
The final twelfth Imam AL mehdi  
Like the sun behind the clouds shining brightly

And if our Imam we do not know  
An ignorant man's death will follow  
Do not be like the jahleeya  
Who forget that our imam is here
