

Mohammad Oh Mohammad oh Mohammad

The greatest creation that's you oh Mohammad
shown us the light, saved us from jahanem
in your footsteps we follow won't be misled
each step feels secure, as if you're holding my hand

A miracle of God, we celebrate a day so grand
let us go back in time, rewind the clock, by you we stand
won't be amongst those who chose the path of arrogance
taught us, to be free, think for ourselves and surrender

Only to Allah, not the tyrants or the oppression

Mohammed you stood against the deaf and blind
Their eyes saw but locked was their hearts and mind
Chose to believe their fathers without any guide
Oh Mohammad tell me how they denied your signs
Without knowledge continuing in disbelief
Mohammed you did not give up, deserving praise
Mercy to humanity that was no lie
Instead of cursing those who wronged you, you would cry
"Forgive them Oh Allah, there's still time,
For they may repent, by your will, see the light"

With your glory, known since the beginning of existence
Every prophet, and angel spoke of your magnificence
The final message to complete the religions

Ali Fatima Hassan and Hussein as your decision
For Mubahila when facing those Christians
They fell into sajood after what they witnessed
Light illuminating from ahlulbayts greatness
It was clear that your path was the righteous
The path that makes a sinner becomes pious

Till this day many pay to see your people grieve
But do they know their money won't follow their grave
Refusing the city of knowledge, what did they achieve?

Its only through mohammed we follow to be saved
You're victorious oh mustafa there's no doubt
You're the reason I engraved Shiat Ali on my heart
Ali the crown on the heart that beats your name
No amount of gold, diamonds, money or fame
Will remove my love for you, It will stay the same
