

Prophet Muhammad saww

Today we're here to celebrate the birth
Of the best man to walk over this Earth

The greatest man in all of history
Following him none other than Ali

Everything he spoke was revelation
After all he's the best of creation

Left us with two so we won't go astray
The Holy Qur'an and the Ahlulbayt

A divine guide sent to us by The Lord
To teach the people there's only one God

Spreading Islam you faced opposition
But you went on completing your mission

A man who was so truthful and honest
Follow his way and Jannah is promised

Your name in this world placed by the green dome
In the next world it's written on God's throne

So many virtues the list will not end
Your excellence beyond space does transcend

You spread Islam across the whole nation
Setting Ahlulbayt as the foundation

Married to the great lady Khadijah
From her your pearl Sayeda Fatima

Twelve holy Imams from this line were born
The last may Allah hasten his return

The poet Kaval Arif requests your dua
