

Muhammed pbuh

Adam who was a father not a son  
And from many prophet s have come  
But its one who we remember today  
And Muhammad his name out loud we say

For his life began with difficulty  
His own father he never got to see  
His mother only with him a short while  
He was so young when he saw her last smile

Not only was muhammed an orphan  
Write or read he couldnt do either one  
And yet he brought the biggest miracle  
Was after the book that was biblical

Endless patience with all those around him  
For there were many who were against him  
Even his own uncle Abu Lahab  
Wished to see the end of Muhammed

But Muhammed persevered and unphased  
For he knew that there was something greater  
Mohammed answered only to Allah  
And to deliver Gods message to all

For he's hope in a sea of hopelessness  
A light that shines brightest in the darkness  
He was the greatest of all creation

We wont forget him our inspiration
